FIFTY DOLLAR SWAT WINS OPENING GAME FOR UKIAH

BROADDUS PITCHES FINE BALL AND DELIVERS HIT WHICH GET SHORTT'S $50

Bev Broaddus, Ukiah pitcher, was the bright star of the proceedings last Sunday afternoon, when the Ukiah baseball team walked away with a four to three victory over the San Francisco El Dorado club in the opening game of the season on the local grounds. Broaddus struck out ten of the opposing batsmen, and in addition delivered the swat which scored Jones in the ninth, winning the game and the $50 which A. D. Shortt, well known local fan, had promised the Ukiah team should they win their first game.

All this despite a boil on Broaddus's arm, which sadly imperiled Ukiah's chances in the third inning, when the pain was so great that Bev lost control for a time and the El Dorados put three runs across the rubber.

The score was evened in the fourth when Broaddus's team mates came to his rescue and pounded Campi for three runs.

The winning run was made in the ninth. Jones, Ukiah's new left fielder, doubled. Busch sacrificed, advancing Jones to third. It was then Broaddus swatted the old pill squarely on the nose and won the game, likewise the "mazzuma."

The first ball was pitched by Judge H. L. Preston and caught by A. D. Shortt amid the acclamation of the crowd.

Ginochio, umpire, had his eye working right and his decisions were fair to both sides.

The Ukiah team looks well, and showed up well, when it is considered that this was their first game and was played against as fast an aggregation as the ElDorados.

The fans were well satisfied and if Ukiah continues to play the kind of baseball showed last Sunday there will be no kick.

Next Sunday they will play Willits at Willits and a record crowd will follow them to the northern city. Willits cleaned Fort Bragg last Sunday to the tune of 18 to 3 and is rarin' to go.

The box score is as follows:

STREET LIGHT PROPOSAL SMOTHERED BY PROTESTS

The proposal to establish a system of pedestal street lights in the business section of Ukiah was smothered under a storm of protests at the meeting of the city trustees called to consider the matter last Monday night.

There were 36 property owners against the proposition and 16 in favor of it. There was a total of over 60 per cent of the frontage represented among the protestants. The sentiment was so overwhelmingly against the proposition that the trustees felt no other course was open to them than to deny the petition, which they did.

A plan for a cheaper system is said to be under consideration, and it is possible an agreement may be reached after the sewer system has been completed. The light system is an improvement to be desired, but at this time the sewers should come first.

INVITES FRIENDS TO CALL

A letter was received by the Dispatch-Democrat this week from Bert D. Van Nader, former well known business man of this city. Bert is at Ripon and is in charge of the branch hardware store there of the Stockton Hardware and Implement Co. He gives his Ukiah friends a cordial invitation to call on him if any happen to be in Ripon at any time.

BROTHER OF LOCAL MAN DIES IN MYSTERIOUS WAY

Roy Nelson, of this city, was called to Winnemucca, Nevada last Sunday on receipt of a message telling of the death of his brother, William Orvis Nelson, whose body was discovered that day in a river at Winnemucca. Nelson disappeared about three weeks previously. A dispatch from Winnemucca Monday says:

Winnemucca authorities today sought to determine who killed William Orvis Nelson, whose body was found Sunday afternoon weighted down with a sack of stones in the river that flows through the city. Nelson, a drug clerk, mysteriously disappeared three weeks ago.

Nelson is survived by a wife and daughter, aged 12.

In the search for him, officers ordered the river dragged, the belief being expressed that he might have been drowned. Nets were stretched across the river at opposite ends of the city and a systematic search was instituted. For days the work proved fruitless and it had appeared that the body was not in the river, when Sunday afternoon a number of searchers grappled the body with their lines.

Around the body was wired a large sack filled with stones. Decomposition of the body, due to its long stay in the water, made it impossible to determine the manner of Nelson's death. This officers expect to accomplish in an official examination of the body.

JOHN FOLAN GUILTY OF MANSLAUGHTER, SAYS JURY

AGED SLAYER OF CONRAD SIGRIST TO COME UP FOR SENTENCE TODAY

John Folan, aged lumber worker of Albion, was found guilty of manslaughter by the jury which tried him in the superior court here, the jury rendering its verdict last Friday afternoon, after being out several hours. The manslaughter verdict was reached after two of the jurymen had voted for acquittal for some time.

One of the outlying features of the trial was the eloquent plea made in Folan's behalf by Atty. W. P. Thomas, who with his associate, Hale McCowen, Jr., conducted the defense. Thomas dwelt on the age and previous respectability of the defendant, and the series of provocations he had suffered for a considerable period previously to the shooting of Sigrist. The extreme age of Folan, who gave his age as 84, had a marked effect in softening the verdict.

District Attorney Hurley conducted the prosecution in a brilliant manner, leaving nothing undone in the presentation of the case for the people.

The evidence tended to show that Folan had been in the habit of loading his cars too high. One was pushed under a shed and a portion of the load knocked off. After a dispute with Sigrist, Folan was told by the foreman to go away for awhile and cool off. He walked two miles to the home of Dean Cassell and borrowed an automatic pistol and then went back to the lumber yard, where he sat and waited until Sigrist came along, when he shot three shots at the latter, one of which took effect fatally.

Folan himself went on the stand and told that he believed Sigrist was insane and that when the latter came along he shot two shots, one to the right and the other to the left, to show Sigrist that he was armed. He states that Sigrist continued to advance toward him and he then turned to run away, but that Sigrist grabbed him from behind and threw him to the ground. Sigrist was shot as the two were struggling on the ground, he stated, but said that the other man must have fired the fatal shot himself in some manner, as he was positive he did not shoot after the two shots he fired to scare Sigrist.

Folan was to have come up for sentence last Tuesday, but on his appearance at that time his attorneys asked a continuance until today, in order to give Folan time to make disposition of his wealth, which is said to amount to about $40,000.

The sentence for manslaughter is from one to ten years in states prison. Folan's extreme age makes it unlikely that he will ever leave prison alive.

NEW MARKET AGENT APPOINTED BY FARMERS

It was announced yesterday that E. W. Stephens has been employed to begin duties for the Mendocino county farm bureau market exchange. Mr. Stephens has had eight years of marketing experience in Utah and Idaho and promises to be an excellent man for the position. He will enter the field immediately, relieving Mr. Yates who has recently resigned.

During Mr. Yates' connection with the farm bureau exchange, the affairs of the organization were handled in an efficient manner and as a result he has won the friendship of the farmers of the county. Mr. Yates was an earnest and conscientious worker, and the influence of the exchange has been felt throughout the county.

While Mr. Stephens is known to only a few of our growers, he comes with a fine recommendation, and should be able to fill the position which was ably held by Mr. Yates.

PRAISES CUISINE

Lew Banks, of Hopland, who has been doing ten days at Hotel-de-Byrnes, in this city on a charge of disturbing the peace, was turned out yesterday morning. MATSON CASE OPEN FOR FURTHER INVESTIGATION

VERDICT OF CORONER'S JURY LEAVES MATTER UP TO DISTRICT ATTORNEY

Coroner W. F. Ornbaun went to Fort Bragg the latter part of last week to conduct the inquest on the death of John Mattson, who was found dead from strychnine poisoning in a field several hundred yards from his home Monday of last week. The inquest was begun on Friday. A number of witnesses were examined Friday and Saturday and the case was then postponed until last Tuesday pending the receipt of the report from San Francisco, where the dead boy's stomach had been sent for examination. The inquest was resumed and finished on Tuesday, the coroner's jury bringing in a verdict of death from strychnine administered by some party unknown. This verdict leaves the case open for further investigation by District Attorney Hurley, who will go to Fort Bragg the latter part of the week. Both Coroner Ornbaun and Sheriff Byrnes are satisfied that the case was one of suicide.

The report on the stomach was to the effect that there was no trace of food of any kind in the stomach, but that there were traces of strychnine. The fact that there was no food in the boy's stomach would seem to indicate that the mother is innocent of administering the poison. It was the theory of Deputy Sheriff Ward Ries that she had given it to her son in his food.

All indications, according to Coroner Ornbaun, point to suicide. The rumors of murder are due to the loose talk of neighbors, who did not like Mrs. Mattson, and who seem to have combined to give her a bad reputation. She does not appear to be insane, as has been intimated in the reports of the case in the San Francisco papers. At the very most, according to Ornbaun, she might be considered eccentric. There was absolutely no foundation for the story published in one San Francisco paper that she had consulted an ouija board and had been told to kill a certain number of her relatives in order to go to heaven. She stated that her son had been irrational for years and that she had constantly shielded him and concealed his condition as much as possible in order that he might not be taken from her and put in an asylum.

DEATH TAKES FATHER OF SUPERVISOR WILLIAMS

J. S. Williams, father of Supervisor E. L. Williams and of Mrs. F. F. Bailhache, both of Hopland, passed away Tuesday at Healdsburg. The deceased was the first white child to be born in Sonoma county, his birth having occurred on a ranch south of the present site of Healdsburg December 14, 1848. His father came to this state about four years before the Donner party. He died while Mr. Williams was a child and the latter's mother married a brother of Kit Carson.

Mr. Williams spent the greater part of his life in Sonoma county and for many years has resided at Healdsburg. He was a man strong mentally and physically and loved to converse on the interesting events of early pioneer life. He was a fluent writer and wrote many articles dealing with the early days of California and especially Sonoma county.

Mr. Williams, who had been actively engaged in physical labor even including the last week of his life, was taken ill Sunday morning. Heart disease is believed to have caused his death.

The following sons and daughters survive to mourn his departure: Mrs. L. B. Scranton, Riverside; Mrs. J. B. Trewin, San Francisco; Mrs. J. D. Cox, Healdsburg; E. L. Williams, Hopland; Mrs. Mattie Bailhache, Hopland; Mrs. Rush Hamilton, Oakland; Mrs. Charles Cake, Healdsburg; Mrs. A. C. Anderson, San Francisco, and Harold Williams, Los Angeles.

HOWARD CASE AFFIRMED; LAND TITLES STILL SAFE

Word was received by County Clerk Prather, Judge Preston and the interested attorneys yesterday to the effect that the district court of appeals had affirmed Judge Preston's decision in the case of Howard vs. Howard. The case affected the title to all the property formerly contained in the old Howard estate and had it been reversed would have upset titles of forty years or more.

Attys. Kasch and Van Dyke were much pleased with the report that the decision had been affirmed as it is a victory for their side of the controversy.

Atty. Wessels, for the other side, may appeal to the supreme court.

SHERIFF AND DEPUTIES MAKE BIG BOOZE HAUL

M. Pallini, said to be the standby of a number of Ukiah bootleg patrons since the breaking up of the plant of Ed Cordts in Redwood valley several months ago, fell a victim to Sheriff Byrnes and Deputies Dreyer and Weselsky last Monday. The sheriff and deputies raided Pallini's place and confiscated nine 50-gallon barrels of wine, two 2½-gallon demijohns of jackass and some bottled goods. The liquor is being held by the sheriff awaiting the outcome of the case.

Pallini is said to have been doing a thriving traffic in booze.

Pallini was released by the sheriff on his own recognizance and will be tried for possession at an early date.

JURY ASKS LENIENCY IN CASE AGAINST DOE

MAN WHO SHOT WILLITS CONSTABLE FOUND GUILTY OF MURDER ASSAULT

John Doe, who shot and seriously wounded Hi Wilkinson, a deputy constable, at Willits, several weeks ago, came before the superior court for trial last Tuesday. Doe had entered a plea of not guilty to the indictment brought against him. The case went to the jury Wednesday shortly after noon and a verdict of guilty of assault to commit murder was brought in at about eight o'clock. The jury, however, recommended the prisoner to the leniency of the court. Doe received the verdict seemingly without a qualm. The penalty is from one to fourteen years in states prison.

Atty. W. D. L. Held, who was appointed by the court on Doe's request to defend him, put up a splendid defense and the prisoner was given the full benefit of every advantage he had under the law. The prosecution was carried on by District Attorney Hurley, assisted by Atty Henry Spurr, of Potter valley.

According to the evidence brought out, Doe shot Wilkinson in front of Hotel Willits while the deputy was taking him to the city jail. Doe went on the stand at the last and told a very plausible story of the shooting. He stated that he was approaching Willits along the highway about 6 o'clock in the morning, when, just as he was crossing the bridge at the northern end of the town, a man told him to throw up his hands. He said he straightway pulled his gun and started shooting, thinking it was a holdup. When Wilkinson began to call for help he realized that it was an officer and ran away, fearing that he would not be able to clear himself of culpability in connection with the shooting. His story did not agree with that of other witnesses as to place, as he put the scene of the shooting at the bridge. He also stated that he did not drive up the Sherwood road in a stolen Dodge car and park it and return to the highway. This was the story told by Wilkinson. Doe said he had walked all night and came into Willits afoot in the early morning.

The prisoner also maintained that he did not see Wilkinson's star, and hence did not know he was an officer. Dr. Bennett, who was called immediately after the shooting to attend Wilkinson, testified that the star was pinned on Wilkinson's breast outside his overcoat.

Doe steadfastly refused to give his true name. He said he was born in Decatur, Illinois. He admitted having worked at Bakersfield and to having been through this section before.

He will come up for sentence at 2 o'clock this afternoon.

Are You "Bank Conscious?"

"Bank Conscious" was a new term to us—coined we believed, by a client of ours who suddenly woke up to the fact that this Institution extended far wider service to its customers than simply keeping their money safely for them.

He mentioned a proposition. Our helpful cooperation pointed the best way to handle the matter—and our grasp on the details and his needs brought him a new conception of service.

Why not let us help you to become "bank conscious," too?

We know that these serges, in blue, gray or brown, are durable, as well as smart in appearance. We know, too, that Clothcraft tailoring is such that your Clothcraft Serge will fit smoothly and keep its shape, not only while it is "new" but after you've worn it a long time. In other words, we don't like to think of it as merely selling you a "suit of clothes"—we know that in a Clothcraft Serge we're giving you real clothes satisfaction! Come in this week. ANNOUNCEMENT!

We have just installed new machine equipment that is going to save many dollars and much trouble for motorists in this vicinity. We have purchased a Simplicity Cylinder Grinder, a micrometer controlled precision tool that will renew your cylinders factory perfect.

Authorized Simplicity Cylinder Grinding Station

Cylinders are the hardest worked and worn part of the motor—approximately 25,000 miles of friction wear to 10,000 miles of car travel. The slightest variation from perfection causes trouble, loss of power, affects other parts of the motor seriously. The only remedy is to regrind.

An old "Seasoned" motor reground is Better than New

We can now do your regrinding quickly and perfectly—save you the expense of trading in your old car. The cost is surprisingly low. We regrind any motor with cylinders from 2 3-4 to 5 1-16 inches and up to 11½ inches in depth. Bring in your auto, truck or motor bus.

These dealers sell gasoline that's always good!

The dealers listed here protect their customers by selling Red Crown gasoline, which because of the exacting production standards maintained by this Company, is uniformly reliable always and everywhere.

Protect your car by patronizing the dealers who protect you. You'll never have to drive very far to find a red, white and blue Red Crown sign, and your car will run better and farther if you let nothing go into your fuel tank except clean, reliable "Red Crown." Quick on the start, prompt on the pick-up, economical on the long run—"Red Crown" has all the qualities you demand of a motor fuel, and has them uniformly.

Incidentally, it's worth reflecting that the garage man, service station, or other dealer who refuses to let his customers take chances with inferior or unknown motor fuels, is likely to be equally responsible and reliable if your car needs inspection or repairs.

Look for the Red Crown disc and the red, white and blue pump—the two signs that identify a reliable dealer.

Windows of the Switchboard

A SIGNAL shows on the switchboard, a telephone number is asked for, and a wire highway is created over which two persons may send their words and thoughts, one to the other.

Over forty million times a day these messages pass over the wires of the Bell System, to attract negotiations between buyer and seller, to keep homes and hearts united, to summon aid or protection in emergencies.

To find the worth of this service would mean to look into nearly every home and office, nearly every shop and factory, in America, to watch how the nation's habits of life are geared to the power of communication.

The telephone operator cannot follow her work to its results, but she can appreciate its importance. In her keeping is part of a great mechanism of nation-wide intercommunication, but those whom she serves and the benefits of her service remain unknown. Each summons for her cooperation is of equal urgency, for each helps to further the progress of the community and the nation.

GASOLINE 1-3 OFF

Ford owners, as well as other automobilists, can now save as much as 33 1-3% of the money they are spending for gasoline, and at the same time have more "pep" in their motors and less engine repairs.
A little patented device known as the Sphinx Gas Breaker does the work. Simple in construction. Cannot get out of order. And is entirely automatic in action. Can be applied by anyone who can use a wrench. No drilling. No tapping to be done.
We want to place a few on cars in this territory and have a more than liberal money making proposition to make to anyone who is able to handle the business which is always created wherever this inexpensive money-saving devise is used.
One agent disposed of 900 in six weeks, another of 100, and another of 50. After ten days' trial a firm in San Francisco equipped their fleet of sixty-five Fords. If you want to try a Sphinx Gas Breaker entirely at our risk send your name and address and make of car today.

FACTS ABOUT THE TELEPHONE

The Bell telephone system showed a net increase of 891,342 telephones during the year 1923.

There are now 10,640,000 Bell-owned telephones in the United States.

The telephone exchange in the City of Denver recently celebrated its forty-fifth birthday. When it was first opened on February 24, 1879, it had 200 subscribers. Now there are 67,000 telephones in Denver.

In the near future it may be possible to talk from Stockholm to Rome with something like the same facility with which an American talks from New York to St. Louis, owing to the development of long distance communication in Europe which is now beginning.

AGRICULTURAL CLASS BANQUET

The banquet given by the members of the high school agricultural class to their members, parents and friends last Wednesday evening was one of the most enjoyable little affairs of the season. York Bros. had donated a lamb, which was barbecued to a turn by Mr. Richey, and which formed the piece de resistance of the dinner, reinforced by various appetizing "trimmings."

A. L. Patton, constable at Mendocino, Chas. Knapp, Joe Maderios and John Gomez, also of that city, were in town yesterday on business.

A son was born to Mr. and Mrs. Ivan Crawford near Largo April 30. Grandpap Chas. is as proud as a peacock and was receiving the congratulations of friends in town yesterday. Both mother and son are doing splendidly.

TOMORROW

is full of wonderful hopes and possibilities. You plan for a new home, an automobile, a trip, or a business of your own. You have not attained your aim after years of planning. Why? Because you have not been saving systematically.

Do not try to save more than you can afford but make the amount small and consider it an obligation which must be paid as regularly as you pay your household bills.

Count the months you have worked without saving and mutliply that number by $10. Could you use that amount of money if you had it?

"You'll say you could."

Don't let the same number of months go by with the same result. Start now. We can help you.

MRS. LOUISE RUSS DIES AT GREENWOOD

(Ft. Bragg Advocate)

Mrs. Louise Russ, an old and respected resident of Greenwood, died at her home in that place, April 23. Deceased was born in Germany almost 72 years ago. She had been a resident of California for 49 years and 37 years of this time was spent in Greenwood, where she was beloved by a wide circle of friends and in particular, the little children of the town, who made her candy and ice cream parlor, which she has conducted for a number of years, their headquarters, and looked upon the proprietor as a fairy godmother.

Death resulted from an attack of pneumonia, which she contracted about two weeks ago.

She leaves two children, Mrs. Minnie O'Brien of Point Arena and Fred Russ of Albion, who have the sympathy of all, in the loss of their mother.

The funeral was held from the Catholic church in Greenwood, Friday morning, Rev. Father Brennan officiating. Interment was in the Cuffey's Cove Catholic cemetery, where the grave was literally covered with floral offerings, tokens of love from friends, far and near.

POLITICAL EDUCATOR AT IT AGAIN

The head of the school department of the state of California, Will C. Wood, appeared on the public streets here to-day urging our people to cast their votes at the presidential primary on May 6 for the candidates for delegates to the Republican national convention pledged to the candidacy of Hiram W. Johnson and opposed to the nomination of President Coolidge. The Argus expresses no opinion as to the political activities of our state superintendent of schools further than to draw the attention of our readers to the fact that, for some time, Mr. Wood has been traveling about the state delivering political speeches and neglecting his duties as the paid servant in charge of education in the state of California. As to whether Mr. Wood's activities in behalf of Senator Johnson's candidacy may properly be regarded as injecting politics into the schools, or the schools into politics, we leave our readers to draw their own conclusions. In solving the problem it might be well to consider what would happen if all the lesser lights in state educational circles followed Mr. Wood's example.—Petaluma Argus.

Indians Team Trim Calpella Centipedes

CALEPLLA, Apr. 29.—The Calpella Centipedes and the Ukiah Indians played a fast game at Calpella Sunday. The honors going to the Indians by a 5-2 score.

The Indians got a four-run lead in the first inning, due to many errors by Calpella's infield, but after that they settled down and played real ball, allowing only one more run, which the Indians got in the second. The Centipedes scored once in the second and again in the fifth when York drove the ball out over center field for a homer, with no one on bases.

A large crowd from Redwood valley, Calpella and Ukiah attended the game.

Ince Paints Picture Of Mighty Passion

Love that glorifies and exalts; passion that sears and rends. Those are the scenes for which every picture producer strives and yearns. Those are the scenes that lift screen offerings from the rut of the commonplace to the realm of the "unforgetable;" that make stars overnight.

Outstanding in the mind of every picture goer are favorite love scenes that live in memory long after productions themselves have been forgotten.

Thomas H. Ince has contributed one of the most powerful love scenes of recent productions in his screen adaptation of "Anna Christie." There is no seductive moonlight; no shadowed arbor; no crackling fire as a background for this remarkable scene. He has painted a picture of mighty passion—and told it in the cabin of a coal barge. This picture, will be shown at the State theatre next Thursday and Friday only.

Blanche Sweet has been a favorite with the picture followers since "Judith of Bethulah" lifted her to highest stardom. In "Anna Christie" she proves herself an emotional actress of first water. Only a genius could have conceived the gripping situation which works out in the final love scenes of this drama of stark realism. Only an artist could have screened the scene with complete realism that at the same time lacks any suggestions of offense.

Eugene O'Neill conceived a dramatic love scene that is unique and has been stamped with the approval of two continents as it has been portrayed on the stage in this drama. Ince has filmed it with a master's touch that promises to put the picture in the foremost ranks of the "great" productions of the silver-sheet.

SAN FRANCISCO, Cal., April 30.—The birth of two heart beats to a normal one, in behalf of the blind welfare, on the part of a chosen few, who oppose everything on which the present state administration label is found, occurred shortly after Friend W. Richardson was inaugurated governor.

* * * * *

Going back over several administrations we find no loud voice raised by the operating department of said administrations in behalf of these most unfortunate of all unfortunates; we find that after the well and strong had divided the loaves, the blind were given the crumbs, and there it ended. When it worked through the extravagant mentality of those who believed in exacting all the traffic would bear from the taxpayers of this state that the Governor was living up to his pre-election promise to the people; namely, that economy would be enforced during his administration, a wail went up from those who had been fed on the cream from the state's financial milch cow (the taxpayers.) They pictured among many calamities, as a result of the Governor's economy, the criminal neglect and pitiful condition of the blind, for which of course Governor Richardson was held entirely responsible.

* * * * *

The reason for this attack on the Governor in this instance is obvious! The use of the blind for a political football is contemptible, and those who resort to such tactics are beyond the pale of political decency. A recent Grievance-Bulletin by a state officer charged the Governor with neglect of the blind; said his economy plan had caused the discharge of thirteen employes, which crippled the school, but failed to carry the chapter to a conclusion. Of the *thirteen* discharged *several* were *caretakers* of the *school's dairy herd,* which the Governor ordered sold when he found that an *abundance of good milk could be furnished the school at a much less cost than the dairy upkeep.* An assistant superintendent was found to be unnecessary; in fact, *it was a weeding out process that left the school's efficiency undisturbed.*

* * * * *

This complainant calls attention to the school's crowded condition, and inability of blind children to gain admittance to the school. This is true and *has been equally true for nearly ten years.* To be explicit, *there has been a waiting list since* 1915, *and yet we heard no humanitarian outcry from former state administrators during all these years in behalf of the afflicted.* Their milk of human kindness did not commence to flow until Governor Richardson announced the state was to be run on a business basis, then it came prolifically.

* * * * *

Soon after Governor Richardson's inauguration he made an investigation of the school's condition. He found evidence of neglect on the part of his predecessors and a crowded condition. *He apportioned* $90,000 *for a new building to be erected this summer, and a larger appropriation for maintenance than was granted by any former administration; in fact, the Governor has done more for the school and shown a more active interest in its welfare than any of his predecessors.* He has assured those honestly interested in blind welfare of his hearty cooperation in behalf of the blind.

* * * * *

It is true the school is crowded and needs more room. It is equally true that the Governor recognizes the school's needs and has taken the first constructive step toward relief,—the erection of a building for the blind girls, to be followed as soon as possible with a home for the boys. This will complete a separation of the deaf and blind, provided for in an act passed by the legislature in 1921.

* * * * *

And yet, while the school is in need of many things it should have been provided with years ago, *this institution under the able management of Doctor French has the best morale and all-round efficiency in its history. The school faculty is not excelled by a similar institution in the United States.* Doctor French sent to the University high school during the present school year eleven of his wards. Their rating in scholarship has been equal to the boys and girls with normal vision. Two or three of these blind pupils received a number one rating in all subjects taken.

* * * * *

Charges that the blind school was neglected reached the ears of one of the East Bay mothers' welfare clubs, a committe of investigation was appointed. They came unannounced and after a thorough investigation reported everything in excellent condition.

* * * * *

The Governor was charged with being responsible for the discharge of two teachers for the adult blind; as a matter of fact these teachers were under the jurisdiction of the State Librarian; and were discharged by his order. The discharge was followed by a storm of protest from all over the state, to which the State Librarian turned a deaf ear. *Finally the Governor took up the matter and through his board of control, money for two years' salary for these teachers was provided for from the emergency fund, and the teachers were reinstated with back pay in full.*

* * * * *

An analysis shows the charges made against Governor Richardson in this instance to be the outcry of wrath from those who for years fed in the state's financial fields of extravagance and resent the bridle-bit economy. It clearly shows that the political football they would make of the blind is covered with a material which did not come from the loom of truth.

* * * * *

Michigan, Illinois, and Nebraska declared an open season for the bull moose last week and proceeded to "dehorn" all of the herd within the confines of those states at the direct primary therein. "Progressive" HI-pocrisy slipped backward over a hundred percent. The *onward* march *backwards* will reach a thousand percent by the end of this week. And so endeth mooseism in the United States.

* * * * *

New Jersey and Pennsylvania have also held their direct primaries and Hi-rampant was overwhelmingly defeated in both states. New Jersey was a solar plexus "knock-out" and Hi went down and out for good and has quit the field, except in California where he will make a show of resistance in order to maintain his "organization" so that he can keep his machine henchmen on the state payroll, for a bull moose must eat.

* * * * *

Up to date Hi-rampant has succeeded in capturing, with difficulty, 15 delegates, while President Coolidge has over 147 more than necessary to nominate him. There is no earthly chance for the California flamboyant orator and his supporters in this state are deserting him like rats on a sinking ship. Betting is now even money that Coolidge will carry the state.

* * * * *

In the Democratic ranks the fight still goes on with the field against McAdoo, and a number of "favorite sons" with ears to the ground are listening for the still small voice. Eastern dispatches seem to indicate a trend toward Senator Samuel M. Ralston, the Thomas A. Hendricks of Indiana.

* * * * *

Mendocino county has been honored several times by both parties in selecting a favorite son as one of the delegates. In next Tuesday's primary, Senator Fred C. Handy is one of the Republican candidates for delegate to the national convention. Here's hoping that Mendocino gives him sufficient votes to pull him through.

* * * * *

In the Democratic contest, E. L. Cunningham is a candidate for delegate to the national convention. He is one of Mendocino's best equipped men and would honor himself and the party by his election. I shall certainly stamp a big X after his name, and am sorry that I cannot cast the entire 30 votes for him. Every Democrat in the county who wishes the party well represented should vote for Cunningham.

ROLLIN CAR SHOWN HERE; CREATING MUCH INTEREST

Enthusiastic approval is being given the Rollin coupe displayed in Ukiah by A. F. Moulton, distributor for the Rollin Motors Company in Mendocino county. Many have ridden in the Rollin coupe and the easy riding qualities are nothing short of phenomenal.

The good body lines, the quality of the coach work and the upholstering appeal to every one. In addition to the things that appeal to the eye there are many points that have been developed in the Rollin car that go deeper than the surface and unite to make this car the foremost in motor car advancement. Seven of these points are: First, gasoline consumption—25 to 30 miles per gallon of gasoline; second, force feed lubrication to all rotating motor bearings; third, four bearing crank and camshaft, together with aluminum alloy piston and connecting rods—resulting in marked absence of vibration; fourth, special carburetion and manifolding, assuring acceleration, speed and flexibility; fifth, four wheel brakes, internal expanding; sixth, special rear spring construction, and seventh, balloon tires.

All of these points and many more make this car well worth seeing. It is being displayed by A. F. Moulton at 303 South State street.

NARROW ESCAPE FROM FIRE

The old grammar school building owned by Dr. Rea and Pat. Connolly, had a narrow escape from fire last Saturday afternoon. Several boys were smoking in the belfry and set the place on fire. They turned in an alarm at once, however, and the fire department had the fire out before it had done much damage.

CASE ARGUED

The case of Brayton vs. Chatham was tried in the superior court last Monday. After examining the witnesses and arguing the matter, the attorneys submitted it to Judge Preston for adjudication.

Miss Veta Smith came up from the city the latter part of last week and spent the week end visiting her parents, Mr. and Mrs. Edgar Smith, in this city.

SUFFERS BAD ACCIDENT

Verne Moore, of Fort Bragg, suffered a serious accident Tuesday while jumping from a train of the Fort Bragg mill company at that place. As he jumped a calk in his boots caught on the car frame and threw him beneath the wheels. One foot was so badly crushed that amputation was necessary and he is in a very serious condition.

WANTS RATES REDUCED

Harry Kemp, of the Blue Lakes resort, has filed a petition with the railroad commission asking that the commission reduce the rates charged by W. H. Miller, local stage man who owns the line to Upper Lake. Kemp also wants the commission to require Miller to haul more baggage.

Jack Waldorf, a member of the newspaper fraternity of San Francisco, who owns the former Kleyn-Schoorel place on Orr creek, was up from San Francisco the latter part of last week and the first of this.
